

Management Summary

Module: Ice Module

Basis of decision for developing an Ice Module for serving cooled beverages on the trade fair

Background:

Regarding the last two trade fairs (IPC drives 2014 @Nuremberg and HMI 2015 @Hannover) the exhibitors received several times feedback concerning the temperature of the served beverages. Due to this issue, a development of an Ice Module within the MI5 demonstrator is projected.

Target and frame conditions:

- Efficient and lean development
- Robust and easy solution
- Deadline: 10.11.2015 – Two weeks before the IPC drives 2015 (24. – 26.11.2015)
- Budget: Material costs : XY €
 Planned working hours: XY h

Next steps:

Execution of a requirement analysis containing all necessary documents
